

1. Provide the following measurements:
 - (a) The minimum and maximum length of the Field of Play. _____
 - (b) The minimum and maximum width of the Field of Play. _____
 - (c) Goalpost to the nearest boundary of the goal area. _____
 - (d) The line marking the edge of the goal area that runs parallel to the goal line. _____
 - (e) The line at the edge of the penalty area, at right angles to the goal line. _____
 - (f) The line marking the edge of the penalty area that runs parallel to the goal line. _____
 - (g) The part of the halfway line within the centre circle. (i.e. the diameter of the centre circle.) _____
 - (h) Penalty mark to the arc attached to the penalty area. _____

2. If the pitch is of minimum length can it be of maximum width? Give the reason for your answer. _____

3. Should measurements for the goal and penalty areas be taken from the inner side or the outer side of the goalposts? _____

4. What is the maximum width of the lines marking the field of play? _____

5. Are the lines on the field of play part of the areas that they enclose? _____

6. What must be the width of the goal line if 4-inch (10 cm) square goalposts are used for the goals? _____

7. Provide the following measurements relating to the goals:
 - (a) Distance from ground to the lower edge of the crossbar. _____
 - (b) Distance between the goalposts. _____

8. May goalposts and crossbars be of a colour other than white and, if so, is there any restriction on the colour allowed? _____

9. Would goalposts and crossbars be acceptable if they are:
 - (a) made of wood? _____
 - (b) rectangular in shape? _____
 - (b) differing in dimensions, e.g. posts 4 inches square and crossbars 3 inches square? _____

10. May a broken crossbar be replaced by a rope stretched from the top of one post to the top of the other, if a proper replacement cannot be provided? _____

11. If portable goals are being used, what should you be checking, specifically from a safety aspect, during your pre-match inspection? _____

12.
 - (a) What is the minimum height above ground of flag posts? _____
 - (b) Other than their positions, what are the other two requirements relating to the flagposts? _____

13. How many flags on the field of play are essential requirements of the Law? _____

14. Consider the following pitch conditions and say whether you think play on them is likely to be possible:

	<u>Yes</u>	<u>No</u>
(a) Dry and severely cut up and rutted. _____	<input type="checkbox"/>	<input type="checkbox"/>
(b) Covered in fog limiting visibility to 40 yards. _____	<input type="checkbox"/>	<input type="checkbox"/>
(c) A frosty pitch which has been rolled flat. _____	<input type="checkbox"/>	<input type="checkbox"/>
(d) Large areas of ankle-deep mud _____	<input type="checkbox"/>	<input type="checkbox"/>
(e) Covered with snow 1 inch deep except for lines which have been swept. _____	<input type="checkbox"/>	<input type="checkbox"/>
